

Ohio Administrative Code

Rule 901:5-5-04 Sampling.

Effective: October 11, 2018

(A) When samples are collected, samples must be taken which represent an average of all parts in a given lot of bulk agricultural liming material and shall avoid surface material, modified or contaminated material, or material from the bottom of the pile of such material.

(B) The director shall not take samples from broken or damaged bags of agricultural liming material.
