97166	Occupational therapy evaluation, moderate complexity. Typically, 45 minutes are spent face-to-face with the patient and/or family.
97167	Occupational therapy evaluation, high complexity, requiring these components: An occupational profile and medical and therapy history, which includes review of medical and/or therapy records and extensive additional review of physical, cognitive, or psychosocial history related to current functional performance.
97168	Re-evaluation of occupational therapy established plan of care. Typically, 30 minutes are spent face-to-face with the patient and/or family.
97129	Therapeutic interventions that focus on cognitive function and compensatory strategies to manage the performance of an activity (e.g., managing time or schedules, initiating, organizing, sequencing tasks), direct (one-on-one) patient contact; initial 15 minutes.
97130	Therapeutic interventions that focus on cognitive function and compensatory strategies to manage the performance of an activity (e.g., managing time or schedules, initiating, organizing, and sequencing tasks), direct (one-on-one) patient contact; each additional 15 minutes (list separately in addition to code for primary procedure).
97530	Therapeutic activities, direct (one-on-one) patient contact (use of dynamic activities to improve functional performance), each 15 minutes.

97533	Sensory integrative techniques to enhance sensory processing and promote adaptive responses to environmental demands, direct (one-on-one) patient contact, each 15 minutes.
97535	Self-care/home management training (eg, activities of daily living [ADL] and compensatory training, meal preparation, safety procedures, and instructions in use of assistive technology devices/adaptive equipment) direct one-on-one contact, each 15 minutes.
97750	Physical performance test or measurement (eg, musculoskeletal, functional capacity), with written report, each 15 minutes.
97755	Assistive technology assessment (eg, to restore, augment or compensate for existing function, optimize functional tasks and/or maximize environmental accessibility), direct one-on-one contact, with written report, each 15 minutes.
97760	Orthotic(s) management and training (including assessment and fitting when not otherwise reported), upper extremity(ies), lower extremity(ies) and/or trunk, initial orthotic(s) encounter, each 15 minutes.
97761	Prosthetic(s) training, upper and/or lower extremity(ies), initial prosthetic(s) encounter, each 15 minutes.
