**Collections: student billing policies.**

- (A) Students are billed for tuition and fees prior to the beginning of a term or upon registration for the term. Tuition and fees generally include the instructional, general, information technology and instructional equipment (ITIE) fees, residence life fees, student health insurance and other fees that may be approved. Certain non-tuition-related charges will also be included on a student's bill and be subject to the established due dates.
- (B) Due dates are established each term for the payment in full of tuition and fees. A payment plan is available to students who are unable to pay in full by the due date. This plan offers payment options to students with each term's fees due and payable by the end of that term.
- (C) Students are allowed to register for subsequent terms ~~and to receive transcripts and diplomas~~ only when they are in good financial standing as determined by university policy established by the office of the Bursar's Office. Financial obligations are cleared through the finance division.
