

Ohio Revised Code

Section 106.042 Effect of adoption of concurrent resolution invalidating proposed rule; effect of failure to adopt resolution.

Effective: September 29, 2017

Legislation: House Bill 49 - 132nd General Assembly

(A) The adoption by the general assembly of a concurrent resolution invalidating any version of a proposed rule prohibits the agency that proposed the rule from instituting or continuing rule-making proceedings with regard to any version of the proposed rule for the remaining term of the general assembly. However, the general assembly may adopt a concurrent resolution that authorizes the agency to institute or continue rule-making proceedings with regard to the proposed rule, but the agency may not adopt any version of the proposed rule unless it has been submitted to the joint committee on agency rule review and the time for legislative review has expired without adoption of a concurrent resolution invalidating the proposed rule.

(B) The failure of the general assembly to adopt a concurrent resolution invalidating a proposed or existing rule is not a ratification of the lawfulness or reasonableness of the proposed or existing rule or of the validity of the procedure by which the rule was proposed or adopted.
