

Ohio Revised Code

Section 1506.47 Plan for management of shore erosion along Lake Erie.

Effective: September 29, 2007

Legislation: House Bill 119 - 127th General Assembly

The director of natural resources, in cooperation with appropriate offices and divisions, including the division of geological survey, may prepare a plan for the management of shore erosion in the state along Lake Erie, its bays, and associated inlets, revise the plan whenever it can be made more effective, and make the plan available for public inspection. In the preparation of the plan, the director may employ such existing plans as are available.

The director also may establish a program to provide technical assistance on shore erosion control measures to municipal corporations, counties, townships, conservancy districts, park boards, and shoreline property owners.
