

Ohio Revised Code

Section 2945.38 Competence to stand trial.

Effective: October 3, 2023

Legislation: House Bill 33

(A) If the issue of a defendant's competence to stand trial is raised and if the court, upon conducting the hearing provided for in section 2945.37 of the Revised Code, finds that the defendant is competent to stand trial, the defendant shall be proceeded against as provided by law. If the court finds the defendant competent to stand trial and the defendant is receiving psychotropic drugs or other medication, the court may authorize the continued administration of the drugs or medication or other appropriate treatment in order to maintain the defendant's competence to stand trial, unless the defendant's attending physician advises the court against continuation of the drugs, other medication, or treatment.

(B)(1)(a)(i) If the defendant has been charged with a felony offense or a misdemeanor offense of violence for which the prosecutor has not recommended the procedures under division (B)(1)(a)(vi) of this section and if, after taking into consideration all relevant reports, information, and other evidence, the court finds that the defendant is incompetent to stand trial and that there is a substantial probability that the defendant will become competent to stand trial within one year if the defendant is provided with a course of treatment, the court shall order the defendant to undergo treatment.

(ii) If the defendant has been charged with a felony offense and if, after taking into consideration all relevant reports, information, and other evidence, the court finds that the defendant is incompetent to stand trial, but the court is unable at that time to determine whether there is a substantial probability that the defendant will become competent to stand trial within one year if the defendant is provided with a course of treatment, the court shall order continuing evaluation and treatment of the defendant for a period not to exceed four months to determine whether there is a substantial probability that the defendant will become competent to stand trial within one year if the defendant is provided with a course of treatment.

(iii) If the defendant has not been charged with a felony offense but has been charged with a misdemeanor offense of violence and if, after taking into consideration all relevant reports, information, and other evidence, the court finds that the defendant is incompetent to stand trial, but

the court is unable at that time to determine whether there is a substantial probability that the defendant will become competent to stand trial within the time frame permitted under division (C)(1) of this section, the court may order continuing evaluation and treatment of the defendant for a period not to exceed the maximum period permitted under that division.

(iv) If the defendant has not been charged with a felony offense or a misdemeanor offense of violence, but has been charged with a misdemeanor offense that is not a misdemeanor offense of violence and if, after taking into consideration all relevant reports, information, and other evidence, the court finds that the defendant is incompetent to stand trial, but the court is unable at that time to determine whether there is a substantial probability that the defendant will become competent to stand trial within the time frame permitted under division (C)(1) of this section, the court shall dismiss the charges and follow the process outlined in division (B)(1)(a)(v)(I) of this section.

(v) If the defendant has not been charged with a felony offense or a misdemeanor offense of violence, or if the defendant has been charged with a misdemeanor offense of violence and the prosecutor has recommended the procedures under division (B)(1)(a)(vi) of this section, and if, after taking into consideration all relevant reports, information, and other evidence, the trial court finds that the defendant is incompetent to stand trial, the trial court shall do one of the following:

(I) Dismiss the charges pending against the defendant. A dismissal under this division is not a bar to further prosecution based on the same conduct. Upon dismissal of the charges, the trial court shall discharge the defendant unless the court or prosecutor, after consideration of the requirements of section 5122.11 of the Revised Code, files an affidavit in probate court alleging that the defendant is a mentally ill person subject to court order or a person with an intellectual disability subject to institutionalization by court order. If an affidavit is filed in probate court, the trial court may detain the defendant for ten days pending a hearing in the probate court and shall send to the probate court copies of all written reports of the defendant's mental condition that were prepared pursuant to section 2945.371 of the Revised Code. The trial court or prosecutor shall specify in the appropriate space on the affidavit that the defendant is a person described in this subdivision.

(II) Order the defendant to undergo outpatient competency restoration treatment at a facility operated or certified by the department of mental health and addiction services as being qualified to treat mental illness, at a public or community mental health facility, at a jail that employs or contracts

with an individual or entity listed in division (B)(1)(b)(i) of this section to provide treatment or continuing evaluation and treatment at a jail, or in the care of a psychiatrist or other mental health professional. If a defendant who has been released on bail or recognizance refuses to comply with court-ordered outpatient treatment under this division, the court may dismiss the charges pending against the defendant and proceed under division (B)(1)(a)(v)(I) of this section or may amend the conditions of bail or recognizance and order the sheriff to take the defendant into custody and deliver the defendant to a center or facility operated or certified by the department of mental health and addiction services for treatment.

(vi) If the defendant has not been charged with a felony offense but has been charged with a misdemeanor offense of violence and after taking into consideration all relevant reports, information, and other evidence, the court finds that the defendant is incompetent to stand trial, the prosecutor in the case may recommend that the court follow the procedures prescribed in division (B)(1)(a)(v) of this section. If the prosecutor does not make such a recommendation, the court shall follow the procedures in division (B)(1)(a)(i) of this section.

(b)(i) The court order for the defendant to undergo treatment or continuing evaluation and treatment under division (B)(1)(a) of this section shall specify that the defendant, if determined to require mental health treatment or continuing evaluation and treatment, shall be committed to one of the following:

(I) The department of mental health and addiction services for treatment or continuing evaluation and treatment at a hospital, facility, or agency, as determined to be clinically appropriate by the department;

(II) A facility certified by the department of mental health and addiction services as being qualified to treat mental illness;

(III) A public or community mental health facility;

(IV) A jail that employs or contracts with an entity or individual listed in division (B)(1)(b)(i) of this section to provide treatment or continuing evaluation and treatment at a jail;

(V) A psychiatrist or another mental health professional for treatment or continuing evaluation and treatment.

(ii) Prior to placing the defendant, the department of mental health and addiction services shall obtain court approval for that placement following a hearing. The court order for the defendant to undergo treatment or continuing evaluation and treatment under division (B)(1)(a) of this section shall specify that the defendant, if determined to require treatment or continuing evaluation and treatment for an intellectual disability, shall receive treatment or continuing evaluation and treatment at an institution or facility operated by the department of developmental disabilities, at a facility certified by the department of developmental disabilities as being qualified to treat intellectual disabilities, at a public or private intellectual disabilities facility, or by a psychiatrist or another intellectual disabilities professional. In any case, the order may restrict the defendant's freedom of movement as the court considers necessary. The prosecutor in the defendant's case shall send to the chief clinical officer of the hospital, facility, or agency where the defendant is placed by the department of mental health and addiction services, or to the managing officer or director of the institution, facility, or jail, or the person to which the defendant is committed, copies of relevant police reports and other background information that pertains to the defendant and is available to the prosecutor unless the prosecutor determines that the release of any of the information in the police reports or any of the other background information to unauthorized persons would interfere with the effective prosecution of any person or would create a substantial risk of harm to any person.

(iii) In determining the place of commitment, the court shall consider the extent to which the person is a danger to the person and to others, the need for security, the availability of housing and supportive services, including outpatient mental health services in the community, and the type of crime involved and shall order the least restrictive alternative available that is consistent with public safety and treatment goals. In weighing these factors, the court shall give preference to protecting public safety and the availability of housing and supportive services.

(c) If the defendant is found incompetent to stand trial, if the chief clinical officer of the hospital, facility, or agency where the defendant is placed, or the managing officer or director of the institution, facility, or jail, or the person to which the defendant is committed for treatment or continuing evaluation and treatment under division (B)(1)(b) of this section determines that medication is necessary to restore the defendant's competency to stand trial, and if the defendant

lacks the capacity to give informed consent or refuses medication, the chief clinical officer of the hospital, facility, or agency where the defendant is placed, or the managing officer or director of the institution, facility, or jail, or the person to which the defendant is committed for treatment or continuing evaluation and treatment may petition the court for authorization for the involuntary administration of medication. The court shall hold a hearing on the petition within five days of the filing of the petition if the petition was filed in a municipal court or a county court regarding an incompetent defendant charged with a misdemeanor or within ten days of the filing of the petition if the petition was filed in a court of common pleas regarding an incompetent defendant charged with a felony offense. Following the hearing, the court may authorize the involuntary administration of medication or may dismiss the petition.

(2) If the court finds that the defendant is incompetent to stand trial and that, even if the defendant is provided with a course of treatment, there is not a substantial probability that the defendant will become competent to stand trial within one year, the court shall order the discharge of the defendant, unless upon motion of the prosecutor or on its own motion, the court either seeks to retain jurisdiction over the defendant pursuant to section 2945.39 of the Revised Code or files an affidavit in the probate court for the civil commitment of the defendant pursuant to Chapter 5122. or 5123. of the Revised Code alleging that the defendant is a person with a mental illness subject to court order or a person with an intellectual disability subject to institutionalization by court order. If an affidavit is filed in the probate court, the trial court shall send to the probate court copies of all written reports of the defendant's mental condition that were prepared pursuant to section 2945.371 of the Revised Code.

The trial court may issue the temporary order of detention that a probate court may issue under section 5122.11 or 5123.71 of the Revised Code, to remain in effect until the probable cause or initial hearing in the probate court. Further proceedings in the probate court are civil proceedings governed by Chapter 5122. or 5123. of the Revised Code.

(C) No defendant shall be required to undergo treatment, including any continuing evaluation and treatment, under division (B)(1) of this section for longer than whichever of the following periods is applicable:

(1) One year, if the most serious offense with which the defendant is charged is one of the following

offenses:

(a) Aggravated murder, murder, or an offense of violence for which a sentence of death or life imprisonment may be imposed;

(b) An offense of violence that is a felony of the first or second degree;

(c) A conspiracy to commit, an attempt to commit, or complicity in the commission of an offense described in division (C)(1)(a) or (b) of this section if the conspiracy, attempt, or complicity is a felony of the first or second degree.

(2) Six months, if the most serious offense with which the defendant is charged is a felony other than a felony described in division (C)(1) of this section;

(3) Sixty days, if the most serious offense with which the defendant is charged is a misdemeanor of the first or second degree;

(4) Thirty days, if the most serious offense with which the defendant is charged is a misdemeanor of the third or fourth degree, a minor misdemeanor, or an unclassified misdemeanor.

(D) Any defendant who is committed pursuant to this section shall not voluntarily admit the defendant or be voluntarily admitted to a hospital or institution pursuant to section 5122.02, 5122.15, 5123.69, or 5123.76 of the Revised Code.

(E) Except as otherwise provided in this division, a defendant who is charged with an offense and is committed by the court under this section to the department of mental health and addiction services or is committed to an institution or facility for the treatment of intellectual disabilities shall not be granted unsupervised on-grounds movement, supervised off-grounds movement, or nonsecured status except in accordance with the court order. The court may grant a defendant supervised off-grounds movement to obtain medical treatment or specialized habilitation treatment services if the person who supervises the treatment or the continuing evaluation and treatment of the defendant ordered under division (B)(1)(a) of this section informs the court that the treatment or continuing evaluation and treatment cannot be provided at the hospital or facility where the defendant is placed

by the department of mental health and addiction services or the institution, facility, or jail to which the defendant is committed. The chief clinical officer of the hospital or facility where the defendant is placed by the department of mental health and addiction services or the managing officer or director of the institution, facility, or jail to which the defendant is committed, or a designee of any of those persons, may grant a defendant movement to a medical facility for an emergency medical situation with appropriate supervision to ensure the safety of the defendant, staff, and community during that emergency medical situation. The chief clinical officer of the hospital or facility where the defendant is placed by the department of mental health and addiction services or the managing officer or director of the institution, facility, or jail to which the defendant is committed shall notify the court within twenty-four hours of the defendant's movement to the medical facility for an emergency medical situation under this division.

(F) The person who supervises the treatment or continuing evaluation and treatment of a defendant ordered to undergo treatment or continuing evaluation and treatment under division (B)(1)(a) of this section shall file a written report with the court at the following times:

- (1) Whenever the person believes the defendant is capable of understanding the nature and objective of the proceedings against the defendant and of assisting in the defendant's defense;
- (2) For a felony offense, fourteen days before expiration of the maximum time for treatment as specified in division (C) of this section and fourteen days before the expiration of the maximum time for continuing evaluation and treatment as specified in division (B)(1)(a) of this section, and, for a misdemeanor offense, ten days before the expiration of the maximum time for treatment, as specified in division (C) of this section;
- (3) At a minimum, after each six months of treatment;
- (4) Whenever the person who supervises the treatment or continuing evaluation and treatment of a defendant ordered under division (B)(1)(a) of this section believes that there is not a substantial probability that the defendant will become capable of understanding the nature and objective of the proceedings against the defendant or of assisting in the defendant's defense even if the defendant is provided with a course of treatment.

(G) A report under division (F) of this section shall contain the examiner's findings, the facts in reasonable detail on which the findings are based, and the examiner's opinion as to the defendant's capability of understanding the nature and objective of the proceedings against the defendant and of assisting in the defendant's defense. If, in the examiner's opinion, the defendant remains incapable of understanding the nature and objective of the proceedings against the defendant and of assisting in the defendant's defense and there is a substantial probability that the defendant will become capable of understanding the nature and objective of the proceedings against the defendant and of assisting in the defendant's defense if the defendant is provided with a course of treatment, if in the examiner's opinion the defendant continues to have a mental illness or an intellectual disability, and if the maximum time for treatment as specified in division (C) of this section has not expired, the report also shall contain the examiner's recommendation as to the least restrictive placement or commitment alternative that is consistent with the defendant's treatment needs for restoration to competency and with the safety of the community. The court shall provide copies of the report to the prosecutor and defense counsel.

(H) If a defendant is committed pursuant to division (B)(1) of this section, within ten days after the treating physician of the defendant or the examiner of the defendant who is employed or retained by the treating facility advises that there is not a substantial probability that the defendant will become capable of understanding the nature and objective of the proceedings against the defendant or of assisting in the defendant's defense even if the defendant is provided with a course of treatment, within ten days after the expiration of the maximum time for treatment as specified in division (C) of this section, within ten days after the expiration of the maximum time for continuing evaluation and treatment as specified in division (B)(1)(a) of this section, within thirty days after a defendant's request for a hearing that is made after six months of treatment, or within thirty days after being advised by the treating physician or examiner that the defendant is competent to stand trial, whichever is the earliest, the court shall conduct another hearing to determine if the defendant is competent to stand trial and shall do whichever of the following is applicable:

(1) If the court finds that the defendant is competent to stand trial, the defendant shall be proceeded against as provided by law.

(2) If the court finds that the defendant is incompetent to stand trial, but that there is a substantial probability that the defendant will become competent to stand trial if the defendant is provided with

a course of treatment, and the maximum time for treatment as specified in division (C) of this section has not expired, the court, after consideration of the examiner's recommendation, shall order that treatment be continued, may change the facility or location at which the treatment is to be continued, and shall specify whether the treatment is to be continued at the same or a different facility or location.

(3) If the court finds that the defendant is incompetent to stand trial, if the defendant is charged with an offense listed in division (C)(1) of this section, and if the court finds that there is not a substantial probability that the defendant will become competent to stand trial even if the defendant is provided with a course of treatment, or if the maximum time for treatment relative to that offense as specified in division (C) of this section has expired, further proceedings shall be as provided in sections 2945.39, 2945.401, and 2945.402 of the Revised Code.

(4) If the court finds that the defendant is incompetent to stand trial, if the most serious offense with which the defendant is charged is a misdemeanor or a felony other than a felony listed in division (C)(1) of this section, and if the court finds that there is not a substantial probability that the defendant will become competent to stand trial even if the defendant is provided with a course of treatment, or if the maximum time for treatment relative to that offense as specified in division (C) of this section has expired, the court shall dismiss the indictment, information, or complaint against the defendant. A dismissal under this division is not a bar to further prosecution based on the same conduct. The court shall discharge the defendant unless the court or prosecutor files an affidavit in probate court for civil commitment pursuant to Chapter 5122. or 5123. of the Revised Code. If an affidavit for civil commitment is filed, the court may detain the defendant for ten days pending civil commitment and shall send to the probate court copies of all written reports of the defendant's mental condition prepared pursuant to section 2945.371 of the Revised Code.

All of the following provisions apply to persons charged with a misdemeanor or a felony other than a felony listed in division (C)(1) of this section who are committed by the probate court subsequent to the court's or prosecutor's filing of an affidavit for civil commitment under authority of this division:

(a) The chief clinical officer of the entity, hospital, or facility, the managing officer or director of the institution, facility, or jail, or the person to which the defendant is committed or admitted shall do all of the following:

(i) Notify the prosecutor, in writing, of the discharge of the defendant, send the notice at least ten days prior to the discharge unless the discharge is by the probate court, and state in the notice the date on which the defendant will be discharged;

(ii) Notify the prosecutor, in writing, when the defendant is absent without leave or is granted unsupervised, off-grounds movement, and send this notice promptly after the discovery of the absence without leave or prior to the granting of the unsupervised, off-grounds movement, whichever is applicable;

(iii) Notify the prosecutor, in writing, of the change of the defendant's commitment or admission to voluntary status, send the notice promptly upon learning of the change to voluntary status, and state in the notice the date on which the defendant was committed or admitted on a voluntary status.

(b) Upon receiving notice that the defendant will be granted unsupervised, off-grounds movement, the prosecutor either shall re-indict the defendant or promptly notify the court that the prosecutor does not intend to prosecute the charges against the defendant.

(I) If a defendant is convicted of a crime and sentenced to a jail, the defendant's sentence shall be reduced by the total number of days the defendant is confined for evaluation to determine the defendant's competence to stand trial or treatment under this section and sections 2945.37 and 2945.371 of the Revised Code or by the total number of days the defendant is confined for evaluation to determine the defendant's mental condition at the time of the offense charged.
