

Ohio Revised Code

Section 2945.65 Evidence obtained as part of test to determine pregnancy.

Effective: April 6, 2017

Legislation: Senate Bill 319 - 131st General Assembly

Evidence of the use of a controlled substance obtained as part of a screening or test performed to determine pregnancy or provide prenatal care is not admissible in a criminal proceeding against the woman who was screened or tested. This section does not prohibit criminal prosecution based on evidence obtained through methods other than the screening or testing described in this section.
