

## Ohio Revised Code

### Section 3111.91 Medical history and physical examination of donor.

Effective: March 31, 2003

Legislation: Senate Bill 245 - 124th General Assembly

---

(A) In a non-spousal artificial insemination, fresh or frozen semen may be used, provided that the requirements of division (B) of this section are satisfied.

(B)(1) A physician, physician assistant, clinical nurse specialist, certified nurse practitioner, certified nurse-midwife, or person under the supervision and control of a physician may use fresh semen for purposes of a non-spousal artificial insemination, only if within one year prior to the supplying of the semen, all of the following occurred:

(a) A complete medical history of the donor, including, but not limited to, any available genetic history of the donor, was obtained by a physician, a physician assistant, a clinical nurse specialist, or a certified nurse practitioner.

(b) The donor had a physical examination by a physician, a physician assistant, a clinical nurse specialist, or a certified nurse practitioner.

(c) The donor was tested for blood type and RH factor.

(2) A physician, physician assistant, clinical nurse specialist, certified nurse practitioner, certified nurse-midwife, or person under the supervision and control of a physician may use frozen semen for purposes of a non-spousal artificial insemination only if all the following apply:

(a) The requirements set forth in division (B)(1) of this section are satisfied;

(b) In conjunction with the supplying of the semen, the semen or blood of the donor was the subject of laboratory studies that the physician involved in the non-spousal artificial insemination considers appropriate. The laboratory studies may include, but are not limited to, venereal disease research laboratories, karyotyping, GC culture, cytomegalovirus, hepatitis, karyotype, Tay-Sachs, sickle-cell, ureaplasma, HTLV-III, and chlamydia.

(c) The physician involved in the non-spousal artificial insemination determines that the results of the laboratory studies are acceptable results.

(3) Any written documentation of a physical examination conducted pursuant to division (B)(1)(b) of this section shall be completed by the individual who conducted the examination.
