

Ohio Revised Code

Section 3314.22 Child entitled to computer supplied by school.

Effective: September 29, 2011

Legislation: House Bill 153 - 129th General Assembly

(A)(1) Each child enrolled in an internet- or computer-based community school is entitled to a computer supplied by the school; however, the parent of any child enrolled in the school may waive this entitlement in the manner specified in division (A)(3) of this section. In no case shall an internet- or computer-based community school provide a stipend or other substitute to an enrolled child or the child's parent in lieu of supplying a computer to the child. The prohibition contained in the preceding sentence is intended to clarify the meaning of this division as it existed prior to September 29, 2005, and is not intended to change that meaning in any way.

(2) Notwithstanding division (A)(1) of this section, if more than one child living in a single residence is enrolled in an internet- or computer-based community school, at the option of the parent of those children, the school may supply less than one computer per child, as long as at least one computer is supplied to the residence. An internet- or computer-based community school may supply no computer at all only if the parent has waived the entitlement prescribed in division (A)(1) of this section in the manner specified in division (A)(3) of this section. The parent may amend the decision to accept less than one computer per child anytime during the school year, and, in such case, within thirty days after the parent notifies the school of such amendment, the school shall provide any additional computers requested by the parent up to the number necessary to comply with division (A)(1) of this section.

(3) The parent of any child enrolled in an internet- or computer-based community school may waive the entitlement to one computer per child, and have no computer at all supplied by the school, if the school and parent set forth that waiver in writing with both parties attesting that there is a computer available to the child in the child's residence with sufficient hardware, software, programming, and connectivity so that the child may fully participate in all of the learning opportunities offered to the child by the school. The parent may amend the decision to waive the entitlement at any time during the school year and, in such case, within thirty days after the parent notifies the school of that decision, the school shall provide any additional computers requested by the parent up to the number necessary to comply with division (A)(1) of this section, regardless of whether there is any change

in the conditions attested to in the waiver.

(4) A copy of a waiver executed under division (A)(3) of this section shall be retained by the internet- or computer-based community school and the parent who attested to the conditions prescribed in that division. The school shall submit a copy of the waiver to the department of education immediately upon execution of the waiver.

(5) The school shall notify the department of education, in the manner specified by the department, of any parent's decision under division (A)(2) of this section to accept less than one computer per child or the parent's amendment to that decision, and of any parent's decision to amend the waiver executed under division (A)(3) of this section.

(B) Each internet- or computer-based community school shall provide to each parent who is considering enrolling the parent's child in the school and to the parent of each child already enrolled in the school a written notice of the provisions prescribed in division (A) of this section.

(C) If a community school that is not an internet- or computer-based community school provides any of its enrolled students with nonclassroom-based learning opportunities provided via an internet- or other computer-based instructional method and requires such students to participate in any of those learning opportunities from their residences, the school shall be subject to this section and division (C)(1) of section 3314.21 of the Revised Code relative to each such student in the same manner as an internet- or computer-based community school, unless both of the following conditions apply to the student:

(1) The nonclassroom-based learning opportunities in which the student is required to participate from the student's residence are supplemental in nature or do not constitute a significant portion of the total classroom-based and nonclassroom-based learning opportunities provided to the student by the school;

(2) The student's residence is equipped with a computer available for the student's use.
