

Ohio Revised Code

Section 3333.162 Criteria, policies, and procedures for transfer of courses.

Effective: October 3, 2023

Legislation: House Bill 33

(A) As used in this section, "state institution of higher education" means an institution of higher education as defined in section 3345.12 of the Revised Code.

(B) The chancellor of higher education, in consultation with the department of education and workforce, public adult and secondary career-technical education institutions and state institutions of higher education, shall establish criteria, policies, and procedures that enable students to transfer agreed upon technical courses completed through an adult career-technical education institution, a public secondary career-technical institution, or a state institution of higher education to a state institution of higher education without unnecessary duplication or institutional barriers. The courses to which the criteria, policies, and procedures apply shall be those that adhere to recognized industry standards and equivalent coursework common to the secondary career pathway and adult career-technical education system and regionally accredited state institutions of higher education. Where applicable, the policies and procedures shall build upon the articulation agreement and transfer initiative course equivalency system required by section 3333.16 of the Revised Code.
