

## Ohio Revised Code

### Section 3701.13 Department of health - powers.

Effective: September 29, 2013

Legislation: House Bill 59 - 130th General Assembly

---

The department of health shall have supervision of all matters relating to the preservation of the life and health of the people and have ultimate authority in matters of quarantine and isolation, which it may declare and enforce, when neither exists, and modify, relax, or abolish, when either has been established. The department may approve methods of immunization against the diseases specified in section 3313.671 of the Revised Code for the purpose of carrying out the provisions of that section and take such actions as are necessary to encourage vaccination against those diseases.

The department may make special or standing orders or rules for preventing the use of fluoroscopes for nonmedical purposes that emit doses of radiation likely to be harmful to any person, for preventing the spread of contagious or infectious diseases, for governing the receipt and conveyance of remains of deceased persons, and for such other sanitary matters as are best controlled by a general rule. Whenever possible, the department shall work in cooperation with the health commissioner of a general or city health district. The department may make and enforce orders in local matters or reassign substantive authority for mandatory programs from a general or city health district to another general or city health district when an emergency exists, or when the board of health of a general or city health district has neglected or refused to act with sufficient promptness or efficiency, or when such board has not been established as provided by sections 3709.02, 3709.03, 3709.05, 3709.06, 3709.11, 3709.12, and 3709.14 of the Revised Code. In such cases, the necessary expense incurred shall be paid by the general health district or city for which the services are rendered.

The department of health may require general or city health districts to enter into agreements for shared services under section 9.482 of the Revised Code. The department shall prepare and offer to boards of health a model contract and memorandum of understanding that are easily adaptable for use by boards of health when entering into shared services agreements. The department also may offer financial and other technical assistance to boards of health to encourage the sharing of services.

As a condition precedent to receiving funding from the department of health, the director of health may require general or city health districts to apply for accreditation by July 1, 2018, and be accredited by July 1, 2020, by an accreditation body approved by the director. The director of health, by July 1, 2016, shall conduct an evaluation of general and city health district preparation for accreditation, including an evaluation of each district's reported public health quality indicators as provided for in section 3701.98 of the Revised Code.

The department may make evaluative studies of the nutritional status of Ohio residents, and of the food and nutrition-related programs operating within the state. Every agency of the state, at the request of the department, shall provide information and otherwise assist in the execution of such studies.
