

## Ohio Revised Code

### Section 3701.55 Use of prophylactic against inflammation - record.

Effective: September 10, 1996

Legislation: Senate Bill 154 - 121st General Assembly

---

Every physician, certified nurse-midwife, or other person in attendance at childbirth shall, immediately after the birth, use in the eyes of the newborn child some prophylactic against inflammation of the eyes of such child, and shall make a record on the birth certificate of the prophylactic used.
