

Ohio Revised Code

Section 3742.39 Clearance examination.

Effective: May 18, 2005

Legislation: House Bill 11 - 125th General Assembly

A residential unit, child care facility, or school remains subject to a lead hazard control order issued under section 3742.37 of the Revised Code until the unit, facility, or school passes a clearance examination. After the unit, facility, or school passes the clearance examination, the director of health or board of health that issued the order shall provide the owner and manager of the unit, facility, or school with information on methods of maintaining control of each lead hazard specified in the order. In the case of a residential unit in which an individual who is not the owner or manager resides, the director or board also shall provide the information to the individual residing in the unit.
