

Ohio Revised Code

Section 3748.13 Inspections.

Effective: September 30, 2025

Legislation: House Bill 96

(A) The director of health shall inspect sources of radiation for which licensure or registration by the handler is required, and the sources' shielding and surroundings, according to the schedule established in rules adopted under division (D) of section 3748.04 of the Revised Code. In accordance with rules adopted under section 3748.04 of the Revised Code, the director shall inspect all records and operating procedures of handlers that install or service sources of radiation and all sources of radiation for which licensure of radioactive material or registration of radiation-generating equipment by the handler is required. The director may make other inspections upon receiving complaints or other evidence of a violation of this chapter or rules adopted under it.

The director shall require any hospital registered under division (A) of section 3701.07 of the Revised Code to develop and maintain a quality assurance program for all sources of radiation-generating equipment. A certified radiation expert shall conduct oversight and maintenance of the program and shall file a report of audits of the program with the director on forms prescribed by the director. The audit reports shall become part of the inspection record.

(B)(1) Except as provided in division (B)(2) of this section, a facility shall pay inspection fees for radioactive material and radiation-generating equipment according to the schedule and categories established in rules adopted under division (A)(9) of section 3748.04 of the Revised Code.

(2) A facility that is, or is operated by, a medical practitioner or medical-practitioner group shall pay inspection fees for radiation-generating equipment according to the following schedule and categories:

<cp-base>First dental x-ray tube</cp-base>	<cp-base>\$310.00</cp-base>
<cp-base>Each additional dental x-ray tube at the same location</cp-base>	<cp-base>\$154.00</cp-base>
<cp-base>First medical x-ray tube</cp-base>	<cp-base>\$614.00</cp-base>

AUTHENTICATED,
OHIO LEGISLATIVE SERVICE
COMMISSION
DOCUMENT #356900

<cp-base>Each additional medical x-ray tube at the same location</cp-base>	<cp-base>\$326.00</cp-base>
<cp-base>Each unit of ionizing radiation-generating equipment capable of operating at or above 250 kilovoltage peak</cp-base>	<cp-base>\$1,220.00</cp-base>
<cp-base>First nonionizing radiation-generating equipment of any kind </cp-base>	<cp-base>\$614.00</cp-base>
<cp-base>Each additional nonionizing radiation-generating equipment of any kind at the same location</cp-base>	<cp-base>\$326.00</cp-base>

(C)(1) Except as provided in division (C)(2) of this section, the fee for the inspection of a facility that proposes to handle radioactive material or radiation-generating equipment and is not licensed or registered, and for which no license or registration application is pending at the time of inspection, is four hundred seventy-four dollars plus the applicable fee specified in rules adopted under division (A)(9) of section 3748.04 of the Revised Code.

(2) For a facility that is, or is operated by, a medical practitioner or medical-practitioner group and proposes to handle radiation-generating equipment, the fee for an inspection if the facility is not licensed or registered, and no license or registration is pending at the time of inspection, is four hundred seventy-four dollars plus the fee applicable under the schedule in division (B)(2) of this section.

(D)(1) Except as provided in division (D)(2) of this section, for a facility that handles radioactive material or radiation-generating equipment, the fee for an inspection to determine whether violations cited in a previous inspection have been corrected is the amount specified in rules adopted under division (A)(9) of section 3748.04 of the Revised Code.

(2) For a facility that is, or is operated by, a medical practitioner or medical-practitioner group and handles radiation-generating equipment, the fee for an inspection to determine whether violations cited in a previous inspection have been corrected is fifty per cent of the applicable fee under the schedule in division (B)(2) of this section.

(E) The director may conduct a review of shielding plans or the adequacy of shielding on the request of a licensee or registrant or an applicant for licensure or registration or during an inspection when the director considers a review to be necessary.

(1) Except as provided in division (E)(2) of this section, the fee for the review is the applicable amount specified in rules adopted under division (A)(9) of section 3748.04 of the Revised Code.

(2) For a facility that is, or is operated by, a medical practitioner or medical-practitioner group and handles or proposes to handle radiation-generating equipment, the fee for the review is seven hundred sixty-two dollars for each room where a source of radiation is used and is in addition to any other fee applicable under the schedule in division (B)(2) of this section.

(F) All fees shall be paid to the department of health no later than thirty days after the invoice for the fee is mailed. Fees shall be deposited in the general operations fund created in section 3701.83 of the Revised Code. The fees shall be used solely to administer and enforce this chapter and rules adopted under it.

(G) Any fee required under this section that remains unpaid on the ninety-first day after the original invoice date shall be assessed an additional amount equal to ten per cent of the original fee.

(H) If the director determines that a board of health of a city or general health district is qualified to conduct inspections of radiation-generating equipment, the director may delegate to the board, by contract, the authority to conduct such inspections. In making a determination of the qualifications of a board of health to conduct those inspections, the director shall evaluate the credentials of the individuals who are to conduct the inspections of radiation-generating equipment and the radiation detection and measuring equipment available to them for that purpose. If a contract is entered into, the board shall have the same authority to make inspections of radiation-generating equipment as the director has under this chapter and rules adopted under it. The contract shall stipulate that only individuals approved by the director as qualified shall be permitted to inspect radiation-generating equipment under the contract's provisions. The contract shall provide for such compensation for services as is agreed to by the director and the board of health of the contracting health district. The director may reevaluate the credentials of the inspection personnel and their radiation detecting and measuring equipment as often as the director considers necessary and may terminate any contract with the board of health of any health district that, in the director's opinion, is not satisfactorily performing the terms of the contract.

(I) The director may enter at all reasonable times upon any public or private property to determine compliance with this chapter and rules adopted under it.
