

## Ohio Revised Code

### Section 4731.93 Authority to prescribe or furnish drugs to sexual partner of a patient diagnosed with chlamydia, gonorrhea, or trichomoniasis.

Effective: March 23, 2016

Legislation: House Bill 124 - 131st General Assembly

---

(A) As used in this section, "physician" means an individual authorized under this chapter to practice medicine and surgery or osteopathic medicine and surgery.

(B)(1) Notwithstanding any conflicting provision of this chapter or rule adopted by the state medical board, a physician may issue a prescription for or personally furnish a complete or partial supply of a drug to treat chlamydia, gonorrhea, or trichomoniasis, without having examined the individual for whom the drug is intended, if all of the following conditions are met:

- (a) The individual is a sexual partner of the physician's patient.
- (b) The patient has been diagnosed with chlamydia, gonorrhea, or trichomoniasis.
- (c) The patient reports to the physician that the individual is unable or unlikely to be evaluated or treated by a health professional.

(2) A prescription issued under this section shall include the individual's name and address, if known. If the physician is unable to obtain the individual's name and address, the prescription shall include the patient's name and address and the words "expedited partner therapy" or the letters "EPT."

(3) A physician may prescribe or personally furnish a drug under this section for not more than a total of two individuals who are sexual partners of the physician's patient.

(C) For each drug prescribed or personally furnished under this section, the physician shall do all of the following:

- (1) Provide the patient with information concerning the drug for the purpose of sharing the

information with the individual, including directions for use of the drug and any side effects, adverse reactions, or known contraindications associated with the drug;

(2) Recommend to the patient that the individual seek treatment from a health professional;

(3) Document all of the following in the patient's record:

(a) The name of the drug prescribed or furnished and its dosage;

(b) That information concerning the drug was provided to the patient for the purpose of sharing the information with the individual;

(c) If known, any adverse reactions the individual experiences from treatment with the drug.

(D) A physician who prescribes or personally furnishes a drug under this section may contact the individual for whom the drug is intended.

(1) If the physician contacts the individual, the physician shall do all of the following:

(a) Inform the individual that the individual may have been exposed to chlamydia, gonorrhea, or trichomoniasis;

(b) Encourage the individual to seek treatment from a health professional;

(c) Explain the treatment options available to the individual, including treatment with a prescription drug, directions for use of the drug, and any side effects, adverse reactions, or known contraindications associated with the drug;

(d) Document in the patient's record that the physician contacted the individual.

(2) If the physician does not contact the individual, the physician shall document that fact in the patient's record.

(E) A physician who in good faith prescribes or personally furnishes a drug under this section is not liable for or subject to any of the following:

- (1) Damages in any civil action ;
- (2) Prosecution in any criminal proceeding ;
- (3) Professional disciplinary action.
