

Ohio Revised Code

Section 4731.941 [Repealed effective 4/6/2023 by H.B. 558, 134th General Assembly; see R.C. 3715.50 to 3715.505] Authority to personally furnish supply of overdose reversal drugs.

Effective: September 23, 2022

Legislation: House Bill 193

(A)(1) A physician who has established a protocol that meets the requirements of division (C) of this section may authorize one or more other individuals to personally furnish a supply of overdose reversal drugs pursuant to the protocol to either of the following:

(a) An individual who there is reason to believe is experiencing or at risk of experiencing an opioid-related overdose;

(b) A family member, friend, or other person in a position to assist an individual who there is reason to believe is at risk of experiencing an opioid-related overdose.

(2) An individual authorized under this section to personally furnish overdose reversal drugs may do so without having examined the individual to whom it may be administered.

(B) An individual authorized by a physician under this section may personally furnish overdose reversal drugs to an individual described in division (A)(1)(a) or (b) of this section if both of the following conditions are met:

(1) The authorized individual complies with the protocol established by the authorizing physician, including having completed the training required by the protocol.

(2) The authorized individual instructs the individual to whom overdose reversal drugs are furnished to summon emergency services as soon as practicable either before or after administering the drugs.

(C) A protocol established by a physician for purposes of this section shall be established in writing and include all of the following:

- (1) A description of the clinical pharmacology of the overdose reversal drugs specified in the protocol;
 - (2) Precautions and contraindications concerning furnishing overdose reversal drugs;
 - (3) Any limitations the physician specifies concerning the individuals to whom overdose reversal drugs may be furnished;
 - (4) The dosage that may be furnished and any variation in the dosage based on circumstances specified in the protocol;
 - (5) Labeling, storage, record-keeping, and administrative requirements;
 - (6) Training requirements that must be met before an individual will be authorized to furnish overdose reversal drugs;
 - (7) Any instructions or training that the authorized individual must provide to an individual to whom overdose reversal drugs are furnished.
- (D) A physician who in good faith authorizes another individual to personally furnish overdose reversal drugs in accordance with a protocol established by the physician under this section is not liable for or subject to any of the following for any action or omission of the individual to whom the drugs are furnished: damages in any civil action, prosecution in any criminal proceeding, or professional disciplinary action.

An individual authorized under this section to personally furnish overdose reversal drugs who does so in good faith is not liable for or subject to any of the following for any action or omission of the individual to whom the drugs are furnished: damages in any civil action, prosecution in any criminal proceeding, or professional disciplinary action.
