

Ohio Revised Code

Section 4773.07 Accreditation for educational programs - continuing education.

Effective: October 20, 1994

Legislation: Senate Bill 191 - 120th General Assembly

(A) Each person seeking accreditation for an educational program or approval for a continuing education program in general x-ray machine operation, radiography, radiation therapy technology, or nuclear medicine technology shall apply to the department of health on a form the department shall prescribe and provide. The application shall be accompanied by the accreditation or approval fee established in rules adopted under section 4773.08 of the Revised Code.

(B) The department shall accredit educational programs and approve continuing education programs that meet the standards established in rules adopted under section 4773.08 of the Revised Code. The accreditation or approval shall be valid until surrendered by the program or suspended or revoked by the department. A program's accreditation or approval may be suspended or revoked if the program does not comply with applicable requirements of this chapter or rules adopted under it.
