---

The legislative authority of any municipal corporation may, upon the filing of an application by any person, firm, or corporation, require of any public utility, by ordinance or otherwise, such additions or extensions to its distributing plant within such municipal corporation as the legislative authority deems reasonable and necessary in the interest of the public, and, subject to section 4951.06 of the Revised Code, such municipal corporation may designate the location and nature of all such additions and extensions, the time within which they must be completed, and all conditions under which they must be constructed and operated.
