

## Ohio Revised Code

### Section 5165.43 Determination of interest rate.

Effective: September 29, 2013

Legislation: House Bill 59 - 130th General Assembly

---

For the purposes of sections 5165.41 and 5165.42 of the Revised Code, the department of medicaid shall determine the current average bank prime rate using statistical release H.15, "selected interest rates," a weekly publication of the federal reserve board, or any successor publication. If statistical release H.15, or its successor, ceases to contain the bank prime rate information or ceases to be published, the department shall request a written statement of the average bank prime rate from the federal reserve bank of Cleveland or the federal reserve board.
