

## Ohio Revised Code

### Section 5512.10 Review of request for interchange.

Effective: June 30, 1999

Legislation: House Bill 163 - 123rd General Assembly

---

This section applies if a political subdivision outside the jurisdiction of a metropolitan planning organization submits a request to the department of transportation for an interchange to be constructed on an interstate highway or a multi-lane, fully controlled-access highway under the jurisdiction of the department. When reviewing such a request, the department or the transportation review advisory council shall consider whether the proposal promotes farmland preservation and efforts to control urban sprawl.
