

## Ohio Revised Code

### Section 907.13 Seed inspection fee tags or labels.

Effective: July 17, 2009

Legislation: House Bill 1 - 128th General Assembly

---

No person shall label agricultural, vegetable, or flower seed that is intended for sale in this state unless the person holds a valid seed labeler permit that has been issued by the director of agriculture in accordance with this section.

A person who wishes to obtain a seed labeler permit shall file an application with the director on a form that the director provides and shall submit a permit fee in the amount of ten dollars. Such a person who labels seed under more than one name or at more than one address shall obtain a separate seed labeler permit and pay a separate permit fee for each name and address.

The applicant shall include the applicant's full name and address on the application together with any additional information that the director requires by rules adopted under section 907.10 of the Revised Code. If the applicant's address is not within this state or it does not represent a location in this state where the director can collect samples of the applicant's seed for analysis, then the applicant shall include on the application an address within this state where samples of the applicant's seed may be collected for those purposes or shall agree to provide the director or the director's authorized representative with seeds for sampling upon request.

Upon receipt of a complete application accompanied by the ten-dollar permit fee, the director shall issue a seed labeler's permit to the applicant. All seed labeler permits that are issued under this section shall expire on the thirty-first day of December of each year regardless of the date on which a permit was issued during that year.

Each person who obtains a seed labeler permit shall label the seed that the person intends for sale in this state in accordance with the requirements established in sections 907.01 to 907.17 of the Revised Code. Each person who holds a valid seed labeler permit shall keep the permit posted in a conspicuous place in the principal seed room from which the person sells seed and shall comply with the reporting and fee requirements that are established in section 907.14 of the Revised Code.
